Higgs & Johnson Supports Ride for Hope

(L-R) Antonia & Narendra at the start of the ride

Higgs & Johnson was once again pleased to support Ride for Hope, 2015. Ride for Hope ('R4H') now in its 9th year, aims to improve cancer care and treatment in The Bahamas. One major accomplishment of R4H to date was paying the mortgage incurred by the Cancer Society in building the acclaimed Cancer Caring Centre. Relieving the Cancer Society of the burden of its mortgage also helped free the organization to return to its core activities and the Society has enjoyed significant growth throughout The Bahamas.

Associate Alexandra T. Hall has been a volunteer at the event since its inception and joining her this year was Kendrick Knowles, System Administrator. Marketing Coordinator, Antonia Burrows has been riding for the cause for over 5 years. Newcomer Narendra Ekanayake, Assistant Systems Administrator, joined in to ride for the first time this year.

Hosted in Nassau for the very first time, Antonia successfully completed 50 miles with Narendra completing 46 miles. Antonia noted, 'I am a proud participant of R4H. It is an amazing experience riding will fellow minded persons all sharing the same goals of promoting cancer care, prevention and support. Garnering donations for every mile one rides is truly fulfilling as all those funds are directly applied to the improvement of programs for cancer treatment and patient care. I look forward to riding each and every year!'
